Sep 2014 - Observations from this Month's Report

Inland Valleys Region

Mark Dowling, Chief Executive Officer

Welcome to the Inland Valleys Association of REALTORS (IVAR) monthly housing update. As a member benefit, IVAR produces monthly and quarterly housing reports to help members and area leaders better understand what's going on in the regional housing market.

When reviewing the latest housing data from the region, there are a few noticeable trends emerging through the first half of 2014:

- Cash buyers continue their downward trend from 34% last year to approximately 19% in July, 2014. This decrease has slowed the demand for housing, which is reflected in an increase in "Days on Market".
- Aggressive cash buyers in 2013 helped drive-up median sales prices 25% in 2013. Although median sales prices started to stabilize earlier in the year around \$285,000, the last few months have seen the median sales price increase to \$310,000.
- Standard Sales continue to dominate the "Sales Type", with nearly 90% of all regional sales represented as Standard Sales .
- Although the total number of Closed sales have been trending down for 2014 when compared to 2013, New Listings continue to demonstrate year-over-year monthly increases. July New Listings numbers were up 2% month-over-year and Pending Sales were up 6%.

Given the significant increase in housing prices over the last year, a new home buying dilemma has sprouted-up as many potential first-time home buyers are finding themselves priced out of the market. According to C.A.R., since 2012, the minimum income required to purchase a house in the Inland Empire has increased 57%. This issue has impacted all of California, and is reflected in the average age of current California homebuyers which is now 48.

equilibrium.

REGIONAL SUMMARY - PAGE 1

OBSERVATION: New listings are steady in 2014. Although not dramatic, the small increase is still noticeable. CONCLUSION: The remainder of 2014 looks positive, if this gradual increase continues. Jobs and the economy this summer will determine where we go from here.

OBSERVATION: Median Sales Price has been slowly dropping, but it remains above \$300K. **CONCLUSION**: This indicates we may have reached an

REGIONAL SUMMARY - PAGE 1

OBSERVATION: Closed listings are moving in the positive direction.

CONCLUSION: The median sales price above \$300K, combined with a steady trend of more closed sales is encouraging.

SALES VOLUME PER CITY - PAGE 3

OBSERVATION: The combined Sales Volume of the top 5 communities (approx. \$374M) is equivalent to the combined volume of the bottom 27.

REGIONAL SUMMARY - PAGE 1

OBSERVATION: For four straight months we've seen New Listings improve year-over-year.

CONCLUSION: This means more inventory coming into

OBSERVATION: Two communities achieved a year-overyear growth in New Listings of 50% or more (Sun City and Norco).

the market. This helps encourage closed sales next month.

COMMUNITIES WITH NEW LISTINGS - PAGE 4

OBSERVATION: 17 communities had a year-over-year drop or no-change in New Listings. Eastvalue had been a "highflyer" for several months, but now this city is back to normal growth in new listings.

REGIONAL SUMMARY - PAGE 1

OBSERVATION: Sold Transactions are down from 1 year ago.

CONCLUSION: The market was in a recovery phase last year at this time. It's not necessarily bad news for sales to be down compared to these previous numbers. A market with steady sales is preferable to lots of market volatility.

RATIO OF SELL VS. ORIGINAL LIST - PAGE 5

OBSERVATION: For two months, there has been increased pressure on lowered expectations between original list and final sell price.

CONCLUSION: The regional market is finding a "new normal". The key for agents is to look for the hot-spots
